

"If you are looking for reasonably priced, high quality professional development for your faculty, I highly recommend the OLC Workshop Pass."

Dena Coots, Director Distance Education/Instructional Design, Alvin Community College

"It is impossible to provide all of our training and professional development in house. Having the OLC Workshop Pass expanded the opportunities I was able to provide to the faculty."

A High Quality, Affordable Professional Development Option

Why the need/interest in the OLC Workshop Pass?

As the Director of Distance Education and the Director of the Professional Development Center at my college, I am always looking for high quality, affordable options for professional development for the faculty and staff at my institution. The OLC offers workshops on topics that are trending in online education, facilitated by subject matter experts from the field. As a small institution with limited resources, value was also a high consideration. Purchasing a package of workshops makes the process simple and highly affordable.

How did the OLC Workshop Pass help your institution?

Why is that important?

The OLC Workshop Pass is very flexible and allows users to select workshops that best match their professional development needs and scheduling preferences. At my institution, we require the participant to also share what they learned in the workshop with the rest of their colleagues through an online community. This increases the value of the professional development experience.

To whom and why you would recommend OLC Workshop Pass?

I would recommend Workshop Pass to any institution looking for quality online professional development. The feedback I receive about the content and quality of each workshop is highly positive. I love that the workshops cover current issues trending in e-learning. ***The value for what you receive is amazing.***

OLC WORKSHOP PASS: TOP 5 BENEFITS

- > High quality professional development opportunities
- > Purchasing and requisition made easier (one PO for ten workshops)
- > Reduced cost of workshops
- > Easy registration process
- > Faculty love the workshops!

About Dena
